Exercise 2 – deadline: 31/2/1399

1- Download Dataset ALL_IDB1from **https://homes.di.unimi.it/scotti/all/**

2- Use morphological operations to count Red and White cells in microscopic images.

3- In addition, you can use other methods we had in the course.

For more information, you can read the following papers:

https://www.sciencedirect.com/science/article/pii/S0208521620300267#fn0010

https://www.sciencedirect.com/science/article/pii/S1877050920308747

Write a complete report with description of steps and put the screen shot of the original images and results.

If your results are astonishing you can write a report like the above papers.

Attach the code.
